

WELCOME TO YOUR "Ace The Observation" SEMINAR

This is the first time the "Ace the Observation" seminar is being presented in NYC. It is going to be a great time and an exciting learning experience for those who:

- a. want to increase student ownership and achievement.
- b. want to learn a better way to take control of the data you collect every day in all of your classes and use it to boost student productivity and growth.
- c. know there must be a different approach to preparing for your observations and evaluations other than "I hope I'm ready." Yikes!

You will learn best practices for collecting, organizing and analyzing your class data to set goals and create action steps so you can demonstrate growth.

This is an innovative program that has been seen by thousands of students for more than a decade. Dr. Michael Cubbin, a highly qualified master veteran teacher, will show you how to turn these unique strategies into awesome results for your next observation and/or evaluation. In this exciting seminar you will receive the materials you will need to begin the very next day. Included with your registration are all forms, procedures, scripting, training, worksheets, and much more...

You will find out what administrators want to see, and learn how to make it happen!

You will not find this program – or this information – anywhere else... only at this seminar!

July 26th, Saturday 9AM – 12 AM (only \$99)
Adria Hotel | Best Western 221-17 Northern Blvd Bayside, NY 11361 | (718) 631-5900

To Register:

1. Click on the Register Now button to pay for the seminar.
2. Completely fill out the form below – save – and return by e-mail before July 19th 2014.
3. You will receive a confirmation – including directions – within 24 hours.
